

Event Report – GDG on Campus IEM

Event Gallery:

GDGoC IEM Event Gallery - Google Drive

This report summarises all the events organised by **GDG on Campus IEM** till date, highlighting the objectives, execution, participation, and overall impact.

1. Google I/O Extended – 2025

Date: 30th August 2025

Mode: Offline

Participants: 97

Venue: CII Auditorium, IEM Management House

About the Event:

Google I/O Extended brought together developers, tech enthusiasts, and students to explore the latest announcements from Google I/O 2025. The event featured breakdowns of new technologies, hands-on demos, and discussions around AI, Android, and Cloud updates. The session helped participants gain insights into real-world applications of Google's latest innovations and encouraged them to explore modern developer tools.

2. GDG Info Session – 2025

Date: 17th September 2025

Mode: Offline

Participants: 91

Venue: Science Auditorium, IEM Gurukul Building

About the Event:

The Info Session aimed to introduce students to **Google Developer Groups (GDG) and GDG on Campus IEM**, explaining the community's purpose, vision, and activities. Participants learned about upcoming programs, workshops, project opportunities, and how joining GDG can boost their technical journey. The session also included interactive Q&A rounds and community introductions.

3. Build Your Career – Webinar

Date: 19th October 2025

Mode: Online

Participants Joined: 200

About the Event:

This webinar focused on guiding students in planning and building a strong career path in tech. Industry speakers shared insights on resume building, interview preparation, networking strategies, and choosing the right learning roadmap. Attendees also received practical tips on leveraging Google technologies, open-source contributions, and certifications to stand out in the tech industry.

Conclusion

Across all events, GDG on Campus IEM successfully engaged over **380+ students**, fostering a strong tech-driven community and providing valuable learning experiences. Each event contributed to enhancing technical skills, career awareness, and collaborative learning among participants. More impactful events and initiatives are planned ahead to further strengthen the student developer ecosystem at IEM. [Event Gallery](#).
